

Report

1. Core to IO boundary :

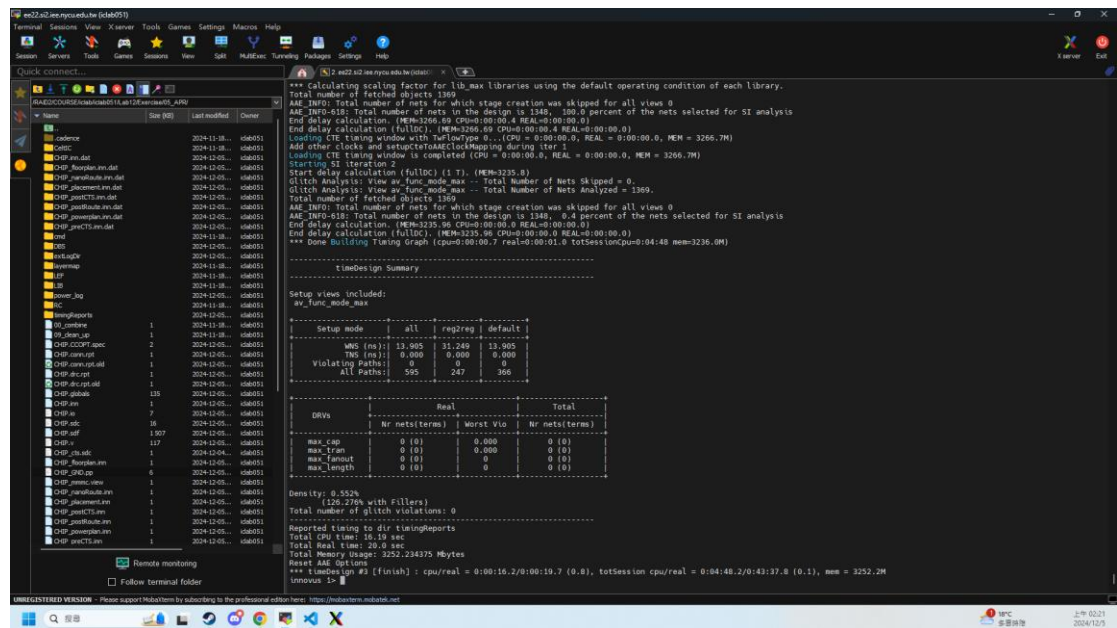

2. Core Ring :

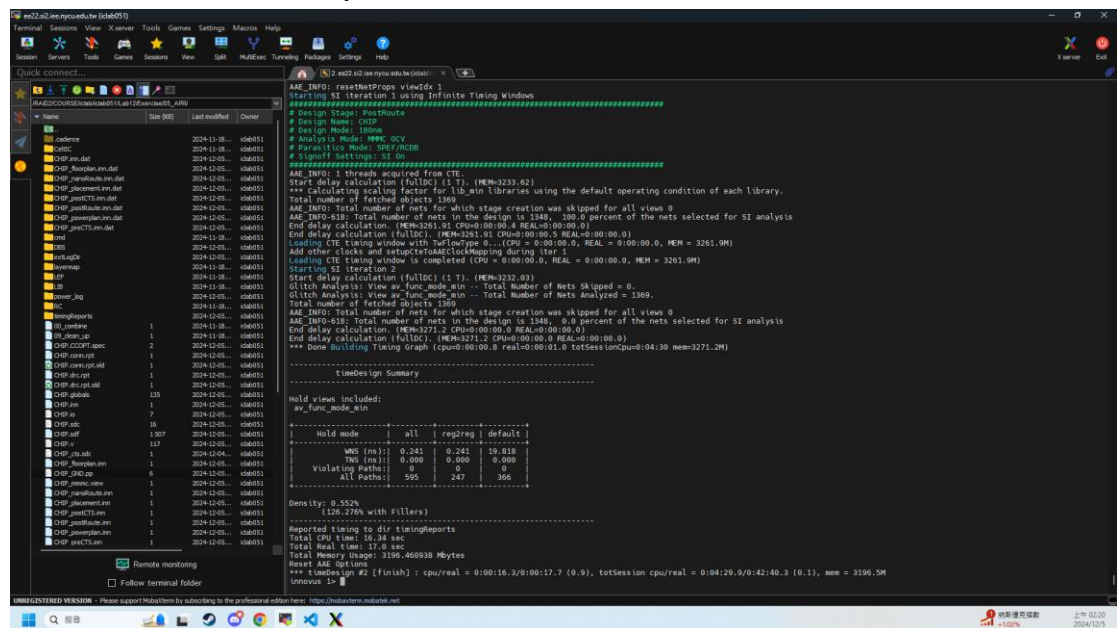

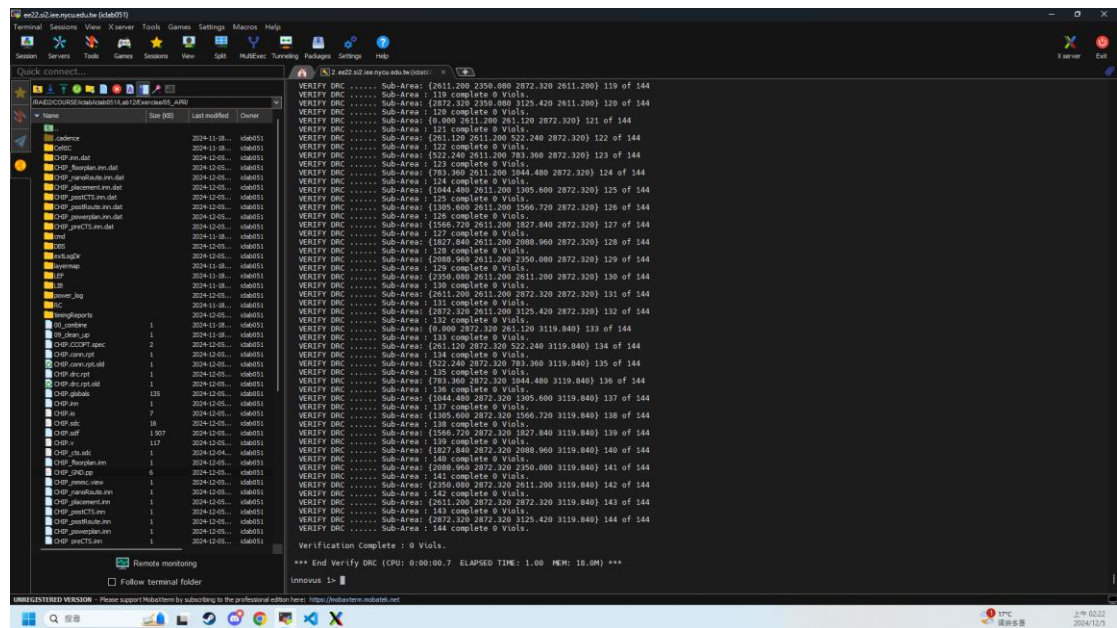

3. Post-Route setup time analysis :

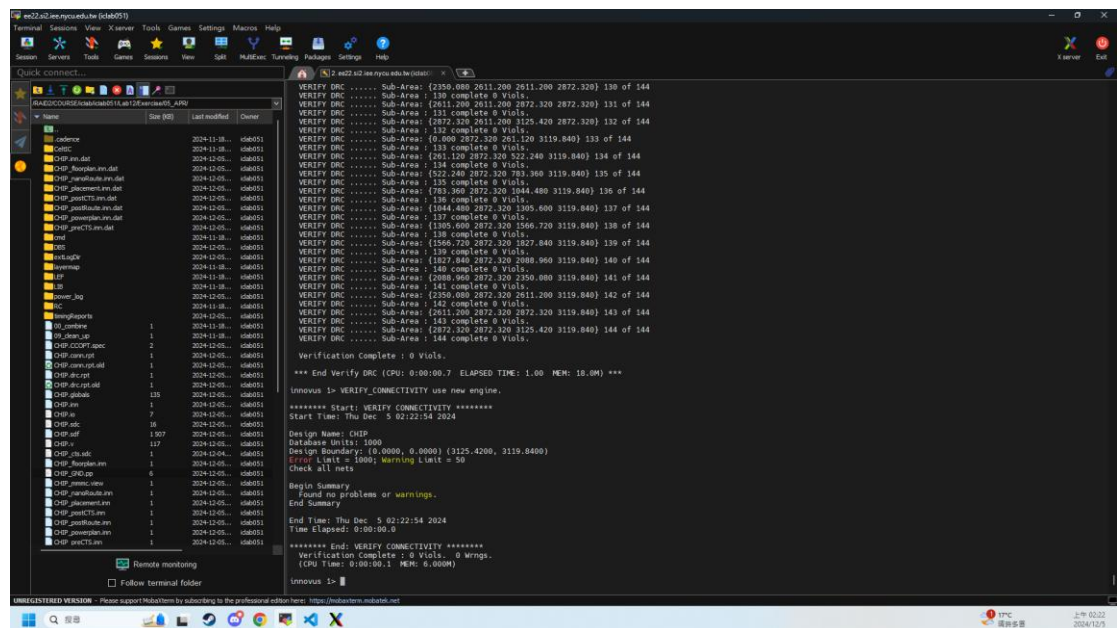

4. Post-Route hold time analysis :

5. DRC result :

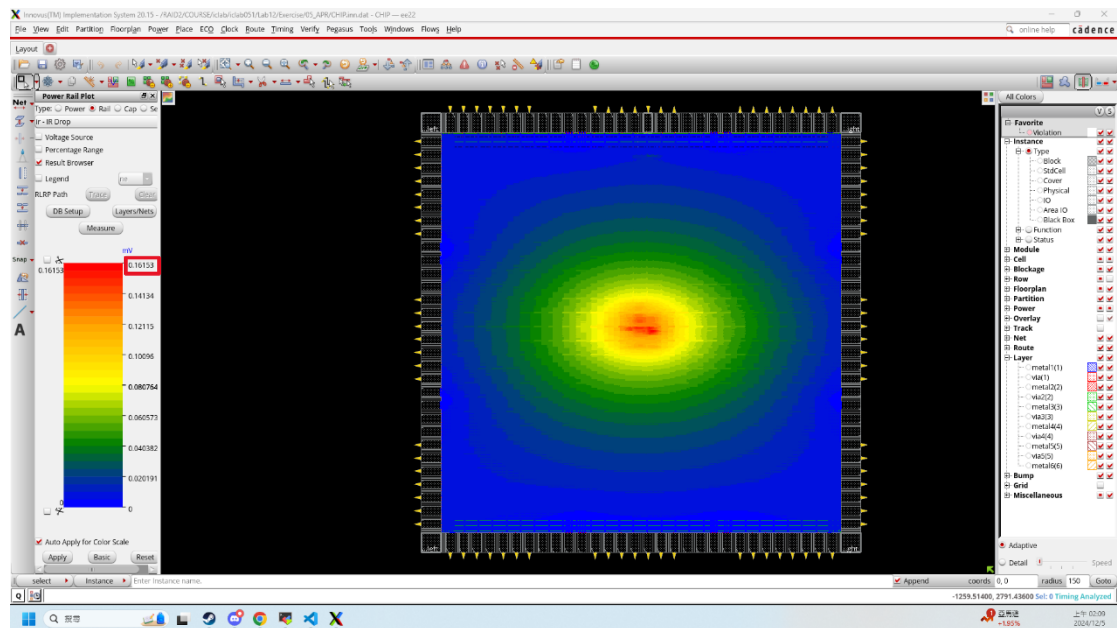

6. LVS result :

[illegible]

9. IR Drop Results :

多加幾組 power pads 可以幫助減少 IR drop，power pads 的作用可以提供 power ring 更多的接觸點，平均分配電流路徑避免集中在某一區域，這樣可以更有效地分散負載電流，減少局部 IR drop。
